

# NEWBORN

P O R T R A I T S

by  
*I'm Not Sleepy Photography*

# HI THERE !

Thank you for your interest in our newborn sessions.

We understand the importance of documenting these first moments in a child's life as well as your first moments as a family and we work hard to make sure you have an amazing experience with us.

We love to capture as many natural moments as we can within your home environment where you are most comfortable. We provide everything such as props, extra lighting and a backdrop if needed.

If you would prefer a studio setting we can arrange that as well.

We are very flexible to accommodate your needs and listen to your ideas to create the best session plan for you, creating amazing memories for you and your child's legacy.

With lots of love,

Beverley x

# WHY HIRE ME?

Hiring a newborn photographer to capture your child's first moments is not easy.

You should take some time and explore all your options before deciding.

I have loved photographing families for years even before I started my business in 2014.

I photograph so many families and I always work hard to give them memories that  
last a lifetime.

I am a mother of 3 children, I have worked with children with different abilities and have developed  
the skill of patience.

I take my time during sessions and always follow the babies and the families lead.

# WHAT TO EXPECT

## BEFORE YOUR SESSION

Newborn sessions are best to do when your baby is between 4-14 days old.

After we have agreed a day and time for your session we then arrange to have a pre session talk about the different ideas you have for the session, if there are elements you wish to add etc.

Please make sure your baby is fed a little time before the session, this helps a lot with keeping them relaxed.

## DURING YOUR SESSION

Newborn sessions can typically be last 3 hours.

. It all depends how your baby is feeling that day. I recommend not scheduling any other appointments after your session.

It is good to keep baby well fed before and during the session

Most of all I just want you to relax, if your baby cries it will be ok to stop, comfort them, give them a feed and start again.

## AFTER YOUR SESSION

Once the session is over I will pack up all my things, clean any mess I have made and head home to back up all the images.

I am always too excited to wait to edit some of them so within a couple of days I will post a couple of sneak peeks

1 week from the session I will have all of your images ready to be viewed on the online gallery.

Depending on which package you have chosen I will send out your images to you the next working day after the online gallery has been sent to you.

# Parents join us

I encourage parents to join in with portraits with the new baby, and these are usually done at the very end but I won't pressure you at all, and this will be discussed before the session.

A white/cream short sleeve shirt is suggested for Dads and a white/cream tank or blouse top is suggested for Mums. For more artistic shots, Dads may choose to remove their tops and mums may choose to be wrapped in stretchy material that I can bring. These can make for some very beautiful moments.

## Siblings

If you have older children that you would like photographed with your baby I would like to start with these shots. Cream, white (without patterns or logos) is recommended for older siblings. Jeans and a white top look great, or dresses etc. The more texture the better.

# SESSION CHECKLIST

1. Feed your baby before the session is due to start.
2. Make sure the room is warm before the session
3. If there are going to be siblings in the session the help of a second adult would be ideal
4. Clear some space for me to have a basic setup.
5. Don't worry about how clean your home is, I focus on your baby and family.
6. The session may last a while so make sure you have a drink and snack available for yourself
7. Keep things like wipes, nappies and cloths close to hand
8. For siblings, let them have some of their favorite toys out.
- 9 Relax and enjoy some time together. I know it can seem stressful, If you sit, relax, and have a hot cup of tea while I take pictures i promise you that it will be worth it.

## WHAT SHOULD BABY WEAR?

It really is up to you. I love light colours, no logo clothing.

I also love babies in vests and some just in a nappy.

You are welcome to have a selection of changes you would like and I will do my best with the time we have to capture your baby in any outfit.

If your baby doesn't settle well after a change, I would say we should limit it to 3 changes at the most but every baby and every session is different and as always, I work to the babies wants and needs.

# INVESTMENT

## COLLECTION I

*£175*

Includes:

Pre shoot consultation

up to 3 hour newborn photography session

Online Gallery

# CLIENT LOVE

“We had a new born photo shoot done with Beverley I couldn't recommend highly enough ! The pictures turned out absolutely amazing and being a new mum I was very nervous of baby being handled and positioned but Beverley soon put me to ease with her gentle and professional touch ! Thank you so much for these beautiful pictures of my baby boy ! Beverley is your girl for photography”

~ Becky Brook
